INCUBATION FOR COLLEGE START UP’S

Islamia College of Science and Commerce has been selected for a Pilot Project dealing with student entrepreneurship and incubation of college start ups.

The proposed pilot envisages startup business ventures owned by the outgoing students and recent pass-outs from the college. A non-profit organization, CHINAR International, will be funding the startups during the pilot phase. The startups will be incubated within the college premises wherein they can maintain their operations for upto 2 years.

As part of the selection process for this project, a 15 minute aptitude test shall be conducted. This will be followed by a three day workshop with the selected students on entrepreneurship. The workshop shall be conducted by Tata Institute of Social Sciences (TISS), a partner of CHINAR International.

Following the Workshop, if the participating students wish to start their own business venture, they will be invited to submit a short business plan. Among various aspects of entrepreneurship, the workshop will also impart the necessary skills to write business plans. Funding of upto 3 Lakhs is available for selected ventures.

Outgoing students and recent pass-outs from the disciplines MBA, BBA, BCom, BCA and Other related disciplines are invited to sit in the 15 minute Aptitude Test which shall be conducted on: 31st May 2016 at 12pm at conference hall Islamia College.
